

# glooi hackathon

## 2026 Official Rules for the Gloo AI Hackathon

**Last Updated:** September 29th, 2026

---

### ELIGIBILITY

You are eligible to participate in and enter the Gloo AI Hackathon provided you meet the following requirements:

- You are, and each of your team members is, at least 18 years old and the age of majority in your/his/her jurisdiction of residence.
- Individuals must apply and be approved to participate at the hackathon. Once approved to participate, individuals and/or teams will receive additional logistics, hotel room block details, challenge details, and steps to complete your registration.
- **In-Person Attendance Required.** At least one member of each team must attend the in-person portion of the Hackathon in Boulder, Colorado, in person, including the finalist presentation session on Thursday, October 8, 2026. A team is not eligible to receive any prize unless at least one team member attends in person as required by this paragraph and is present to present the team's Entry if the team advances to the finals.
- **Participant Costs.** No entry fee and no purchase of any Gloo product or service is required to enter or to win. Each Participant is, however, solely responsible for all costs of participation, including travel to and from Boulder, Colorado, ground transportation, lodging (including any room reserved through the Hackathon room block), meals not expressly provided by Gloo, equipment, software, internet access, and any subscription or license fees for tools the Participant elects to use. Gloo will not reimburse any such cost. You should not incur travel costs before you receive written confirmation that you have been approved to participate.

### BINDING AGREEMENT AND CONSIDERATION

These Official Rules are a binding legal contract between you and Gloo, LLC, a Colorado limited liability company with its principal place of business at 831 Pearl Street, Boulder, Colorado 80305 (“Gloo,” “we,” “us,” or “our”). Please read them carefully before you register.

**Consideration.** In exchange for the opportunity to compete for the prizes described below, for admission to and use of the Hackathon venue and its facilities, for the challenge materials, mentoring, tooling, and event infrastructure that Gloo provides, and for the other benefits of participation, you agree to be bound by these Official Rules, including the license you grant, the representations and warranties you make, the disclaimer of warranties, the limitation of liability, the indemnification obligation, and the governing law and dispute resolution provisions. You acknowledge and agree that you are providing valuable consideration in exchange for that opportunity - including your time, effort, and skill, your travel to Boulder, Colorado, and the Entry you submit - and that Gloo is providing valuable consideration in return, and that these Official Rules are supported by adequate consideration on both sides and are enforceable against you.

**Acceptance by Each Team Member.** Each team member must individually accept these Official Rules before the team submits an Entry. A team is not eligible for any prize unless Gloo holds a record of acceptance from every team member. By accepting these Official Rules electronically, you agree that your acceptance has the same legal effect as a handwritten signature and that Gloo’s record of it is admissible evidence of your agreement. The person who submits an Entry on behalf of a team represents and warrants that he or she is authorized by every team member to do so and to bind each of them to these Official Rules.

**Contest of Skill.** This Hackathon is a bona fide contest of skill. It is not a lottery, a raffle, a sweepstakes, or a game of chance. Winners are determined solely by the judges’ application of the published judging criteria and weights and, where necessary, the tie-breaking procedure set out below. No prize is awarded on the basis of chance.

## **GENERAL RULES FOR PARTICIPATION**

**The Competition Period** - Development of the solution that will be considered for awards may start 30 days before the actual date and time of the event’s hacking period, which begins on September 8, 2026, one month prior to the hackathon. You can build on existing technology, but you will only be judged on code written and progress made during the competition’s hacking period. Any teams that violate this rule will be automatically disqualified.

Any software development tools, game engine, IDE, and/or programming language can be used for the event.

**Paid Software Assets** - You can use purchased paid art/audio assets, you just have to identify what is used and where it was sourced. Low cost paid developer plug-ins are also okay. Assets, SDKs, APIs or other tools or components available under a trial license may be used.

**Paid Software Tools** - For paid creation tools such as Adobe Creative and Solid Works, or generative AI tools such as ChatGPT or Midjourney, you are allowed to use any platform available to you. We want to enable all participants to continue to work on the platform they are most familiar with.

**Use of Personal Property** - You are responsible for the safety and security of your own personal property, including laptops, tablets, mobile phones, and any XR gear you bring. We cannot store or secure personal equipment at the hackathon.

**Public Release** - Any code submitted for judging will not be released to the public and will only be reviewed by the judging team only. Access may be revoked after code is validated.

**Software Licenses** - The license selected by the team must be clearly listed in code announcing the license the project adheres to. A team can use multiple licenses in their project. For example, the public code used could be licensed under the Apache license agreement whereas the code written by the team for their project could be licensed under the MIT license agreement. Public code used inside the project should also list the licenses the code is subjected to.

**Communication** - You will be required to join and participate in the hackathon online Discord channel established for organization and team communications before and during the event.

**Commitment to Present** - While you are not required to present actual code, all entrants must present a 90 second summary of their solution.

**Mission Control** - If you are not sure about a rule during the event, go to the mission control center to make a rules inquiry or ask online in the #ask-the-organizers channel.

## **SOLUTION ENTRY STANDARDS AND REQUIREMENTS**

The intent and spirit of the Hackathon is to encourage Participants to build innovative applications using AI to drive human flourishing and serve the wider needs and purposes of the (wider) Church. In addition to the content and technical requirements listed earlier, to be eligible for judging, all Entries must be acceptable for all viewing audiences.

We will automatically disqualify any Participant or team that submits an Entry or supporting materials that contain data, code, text, sound or images that we, in our sole opinion and for any

reason, believe to be malicious, illegal, vulgar, offensive, or inappropriate for public viewing, or that presents the organizers, partners, or event itself in a negative light.

**Final Build Requirements:** Build a new solution that incorporates artificial intelligence (AI) to support flourishing people and thriving churches. As part of your submission, you must:

- **Solution:** Deliver a solution (code, application, game, etc) via a defined GitHub and/or Drive provided by the organizers that utilizes AI and addresses the challenges issued in advance of the event and worked on during the announced competition period.
- **Entry Description:** Submit a 250 word description submitted in English of the solution.
- **Demo Video:** Submit a maximum 90-second demo video of the working application uploaded to a Google Drive folder (Gloo will provide the link as part of the submission form), with a 90 second demo video.

The preliminary submission deadline will be 9:00 pm Mountain Time on Wednesday, October 7. (videos optional, all else required)

The submission deadline for finalists will be 9:00 am Mountain Time on Thursday, October 8. (videos required)

By submitting an Entry in this Hackathon, you agree:

- That you, your team and the Entry submitted complies with these Official Rules;
- That the entirety of the Entry is your/your team's original work;
- That the demo video submitted is solely the work of you or your team, including but not limited to, the actual filming, editing, graphic design, etc. of the video; and
- That you/your team have obtained any and all consents, approvals, or licenses required for you to submit your Entry, and that your Entry will not violate anyone else's rights or the law.

## HOW MANY ENTRIES MAY I SUBMIT?

One. You and/or your team may submit one Entry. If more than one Entry is submitted the second Entry submitted will be disqualified unless clearly stated that you prefer to use the second Entry instead of your first Entry.

## DISQUALIFICATION

We will disqualify, in our sole discretion, any Entry that we believe contains any element that is malicious, corrupt, damaged, incomplete, inappropriate, ineligible or illegible. We are not responsible for Entries that we do not receive for any reason, or

for Entries that we receive but do not meet Hackathon requirements (as determined by us in our sole discretion) or are not decipherable for any reason.

## HOW WILL ENTRIES BE JUDGED?

The judging period will begin on Wednesday, October 7. If you/your team is eligible to present, your team must present your entry onsite in the presentation session. You and/or a member of your team may be asked by the judges to clarify your entry, verify the work completed during the competition period, or discuss the validity of the solution. The highest-scoring entries who will continue to the finals will be announced that day.

There will be two rounds of judging by a panel of judges: preliminary judging in tracks on Wednesday night, and finalist judging in front of the full group on Thursday morning. There will also be an independent code verification team who checks and scores any related code of submissions.

Entries will be judged on the following criteria and factors:

**Scoring.** Each judge scores each Entry on each of the five criteria below on a scale of 0 to 10. Each criterion score is multiplied by the weight shown for that criterion, and the weighted scores are summed to produce that judge's total for the Entry. An Entry's score for a round is the arithmetic mean of all judges' totals for that Entry, calculated to two decimal places. The weights below total 100%. Judges score only the criteria listed below. Gloo will publish any change to these criteria or weights no later than 11:59 p.m. Mountain Daylight Time on Monday, September 7, 2026, after which they will not change.

1. Concept/Product - 20% of total score
  1. Does the product address the challenge?
  2. How user-friendly is the approach?
  3. How much progress did they make during the event?
2. Innovation - 20% of total score
  1. Does the project portray a creative approach to the issue?
  2. Does the project address an actual need?
  3. Did they start from scratch or build on existing technology?
3. Impact and Execution - 20% of total score
  1. How much impact (quality and quantity) could the solution have?
  2. Could it produce a big change or a little change to the problem it addresses?
  3. Is this solution implementable?
  4. How hard would it be to scale?
4. AI - 20% of total score

1. How did the project use AI?
5. Presentation - 20% of total score
  1. How well did the team communicate with each other and the audience?
  2. How well did they respond to questions from judges?

## **TIE-BREAKING PROCEDURE**

If two or more Entries receive identical round scores and the tie affects advancement to the finals or the award of any prize, the tie will be resolved by applying the following, in order, until the tie is broken: (1) the higher mean weighted score on Impact and Execution; (2) then the higher mean weighted score on Concept/Product; (3) then the higher mean weighted score on AI; (4) then the higher mean weighted score on Innovation; (5) then the higher mean weighted score on Presentation; and (6) then the determination of the Head Judge, a single individual designated by Gloo in writing before judging begins, who will resolve the tie by applying the published criteria and will record the basis for the determination in writing.

**No tie affecting advancement to the finals or the award of any prize will be resolved by drawing lots, coin toss, random selection, or any other method involving chance.**

**Verification of Winners.** All potential winners are subject to verification, and completion of verification is a condition precedent to any award. Any announcement of a winner at the event is provisional until verification is complete. Gloo may require a potential winner to present the Entry and respond to questions from the judges or the code verification team, to verify the work completed during the Competition Period, to provide proof of identity and of age, to confirm compliance with the in-person attendance requirement, and to provide the documentation described in the Taxes section. If a potential winner cannot be verified, is found to be ineligible, or fails to provide required information within the time Gloo specifies, the Entry may be disqualified and Gloo may award the prize to the next-highest-scoring eligible Entry.

## **WHAT ARE THE PRIZES?**

Participants are eligible for awards including cash prizes totaling **\$200,000** as well as opportunities for later acceleration, which may include an additional investment per project and an ongoing business development agreement. Cash prize amounts range from \$5,000-\$100,000 and will total \$200,000.

Award categories may include but are not limited to:

- Overall Grand Prize (most impactful)
- Best of track (3)
  - Agents

- Bible
- Ministry Resourcing
- Best in function category (3)
  - Best Design
  - Best Storytelling or Pitch
  - Best Technology
- Ancillary
  - Bonus challenges

**All cash prizes are awarded solely to entrants or to the owners of Entries, and solely on the basis of the judging criteria and weights published above.** Any bonus challenge that carries a cash award will be described in writing in advance and will be judged against stated criteria on the basis of skill. No cash prize is awarded on the basis of a drawing, lot, random selection, or any other method involving chance, and no cash prize is awarded for anything other than skill demonstrated in the Hackathon. Gloo may present informal, non-cash recognition of nominal value at the event; any such recognition is not a prize, carries no cash value, and is not funded from or counted against the \$200,000 cash prize pool.

Teams are required to determine any distribution of award funding amongst members of the team themselves. Gloo is not responsible for any dispute regarding award funding dispersal or use.

We reserve the right to award additional prizes or change the prizes prior to the event, at our sole discretion, provided that the value of the prizes specified here shall not decrease. Final prize categories and amounts will be available before the start of the hackathon.

## PRIZE CONDITIONS

Your odds of winning a prize will depend on the number of eligible entries received (estimated 100), the quality of the entries, and the level of skill of the participants.

If you or your team is confirmed as a winner:

- You may not designate someone else or another team as the winner;
- You agree to provide Gloo with the complete tax documentation described in the Taxes section below for each payee, and you agree that Gloo may withhold payment of any prize until it has received that documentation and has verified that payment complies with all applicable tax withholding and reporting requirements;
- You and each team member acknowledge that prizes are taxable income, that each recipient is solely responsible for all taxes and costs related to accepting and using a

prize, and that Gloo will file the information returns required of it by law as described in the Taxes section below; and

- You and team members will participate in media interviews as requested by Gloo.

Prize monies should be retained by individuals only in conformity with any applicable policies of his or her employers, academic institutions, or government regarding participation in and receipt of promotional consideration relating to the Hackathon and receipt and retention of prizes. If a government, employer's or school's policies are applicable, it is the Participant's sole and ultimate responsibility, in consultation with his or her government, employer or school, to determine how and if prize will be retained and/or distributed and accounted for and we assume no responsibility for the decisions made by such government, employers or schools regarding this issue.

## TAXES

**Your Responsibility.** Prizes are taxable income. Each prize recipient is solely responsible for all federal, state, local, and any foreign taxes arising from the receipt or use of a prize, and for any cost of accepting or using a prize. Gloo does not provide tax advice, and you should consult your own tax advisor.

**Gloo's Reporting Obligations.** Gloo will file the information returns required of it by applicable law with respect to prizes it pays and will furnish the corresponding statements to recipients. For a recipient who is a U.S. person, this will ordinarily be an IRS Form 1099-MISC. For a recipient who is not a U.S. person, Gloo will report as required for payments to foreign persons, which may include IRS Forms 1042 and 1042-S.

**Required Tax Documentation.** As a condition of payment, each payee must provide Gloo with complete and correct tax documentation, in the form Gloo specifies and through the secure channel Gloo designates: (a) a payee who is a U.S. person must provide a completed and signed IRS Form W-9, including legal name, address, and Social Security number or taxpayer identification number; and (b) a payee who is not a U.S. person must provide a completed and signed IRS Form W-8BEN (individual) or Form W-8BEN-E (entity), including any claim of income tax treaty benefits the payee is entitled to make. Gloo may require additional documentation, including proof of identity and residency. Do not send tax documentation, a Social Security number, or a taxpayer identification number by email, Discord message, or shared file folder; Gloo will never request it through those channels.

**Withholding.** Gloo may withhold from any prize any amount it is required or permitted by applicable law to withhold, including backup withholding where a payee fails to furnish a correct taxpayer identification number, and withholding on payments to foreign persons, which may be

at a rate of up to 30% unless reduced by an applicable income tax treaty. Any amount Gloo withholds and remits to a taxing authority satisfies Gloo's prize obligation to the extent of the amount withheld.

**Payment Withheld Pending Tax Verification.** Gloo may withhold payment of any prize, in whole or in part, until Gloo has received all tax documentation it requires and has satisfied itself that payment of that prize complies with all applicable tax withholding, information reporting, sanctions screening, and other legal requirements. Gloo may withhold payment for as long as is reasonably necessary to complete that determination, and Gloo will not be liable for any delay in payment resulting from a payee's failure to provide required documentation or from Gloo's completion of that determination. If a payee does not provide required documentation within ninety (90) days after Gloo requests it, Gloo may treat the prize as forfeited.

**Allocation Among Team Members.** A cash prize awarded to a team is awarded to the team as a whole, and the team determines how it is divided among its members. Before Gloo pays any prize, the team must deliver a written allocation instruction, on the form Gloo provides and signed by every team member, stating each payee's legal name and the exact amount or percentage payable to that payee, totaling 100% of the prize. Gloo will pay and report in accordance with that instruction. If Gloo does not receive a complete allocation instruction signed by every team member, together with the required tax documentation for each payee, Gloo may withhold the entire prize until it does. Gloo is not responsible for and will not resolve any dispute among team members regarding a prize, and Gloo's payment in accordance with a signed allocation instruction fully discharges Gloo's obligation with respect to that prize.

## HOW WILL MY ENTRY POTENTIALLY BE USED?

Other than what is set forth below, we are not claiming any rights to own or use your entry.

By submitting your entry, you:

- Agree to allow Gloo AI Hackathon panel of judges to feature your Entry for purposes of judging, awarding prizes, and evaluating for additional acceleration funding.
- Agree to assist us and our representatives in the creation of case studies or white papers (together "Studies") detailing your Entry or Entries. Studies will not include any confidential Participant information. Upon your approval of the Studies' accuracy, you give us permission to display the Studies, including trademarks, logos, and other identifying information contained in it, on our websites and in other marketing materials. The marketing materials may take various forms, including printed materials, online articles, video, audio, and other digital recordings;

- Understand and acknowledge that Gloo or other entrants may have developed or commissioned materials similar or identical to your Entry and you/your team waive any claims you may have resulting from any similarities to your Entry;
- Understand that we cannot control the incoming information you will disclose to us or our representatives in the course of entering, or what we or our representatives will remember about your Entry. You also understand that we will not restrict work assignments of representatives who have had access to your Entry. By entering this Hackathon, you agree that use of information in our representatives' unaided memories in the development or deployment of our products or services does not create liability for us;
- Understand that you will not receive any compensation or credit from us for use of your Entry, other than what is described in these Official Rules or further agreed upon in a partnership with Gloo. This provision does not limit any compensation you may receive through us or third parties as a result of your use or marketing or profiting from the application beyond this Hackathon or as provided in these Official Rules.

## **LICENSE GRANT FOR PUBLICITY AND PROMOTIONAL PURPOSES**

**License to Gloo.** In addition to the permissions described above, you and each of your team members grant Gloo a non-exclusive, worldwide, royalty-free, fully paid-up license to copy, distribute, publicly display, publicly perform, transmit, and make reasonable promotional modifications to the materials submitted with your Entry - including its written description, screenshots, images, and demo video. These modifications may include excerpting, cropping, resizing, reformatting, captioning, translating, editing for length or clarity, and combining the submitted materials with other promotional content.

Gloo may exercise these rights, and permit its service providers, media partners, and event partners to exercise them on Gloo's behalf, solely to advertise, market, publicize, report on, and archive the Hackathon and future Gloo hackathons and events. This includes use on Gloo's websites and social media channels and in printed and digital marketing materials, presentations, press materials, and investor and partner materials.

You and each team member also permit Gloo to use the name, image, likeness, voice, statements, biographical information, city and state of residence, and employer or organizational affiliation that person provides for those purposes.

For clarity, this license does not authorize Gloo to use the Entry's source code, object code, models, datasets, inventions, or other underlying technology to develop or commercialize a product or service.

**Recording at the Event.** Gloo and persons it authorizes will photograph, film, and record audio and video at the Hackathon, including during presentation sessions. By attending, you consent to being photographed and recorded and to Gloo's use of that material within the license granted in this section. If you prefer not to be photographed or recorded, notify Gloo's staff at the mission control center and Gloo will provide a visible indicator and will make reasonable efforts to exclude you, although Gloo cannot guarantee exclusion from wide shots of the venue or from the recording of a finalist presentation your team elects to give.

**Your Video Content.** You are responsible for obtaining a written release from each identifiable individual who appears, or whose voice is heard, in your demo video, permitting Gloo's use of that material as described in this section.

Please note that following the end of this Hackathon you, your team, and your Entry (excluding publication of any code or proprietary information) may be publicized as participating in the Hackathon, including distribution online or via media or posting on our site or a third-party website. We are not responsible for any unauthorized use of your Entry by those accessing or viewing your Entry. While we reserve these rights, we are not obligated to use your Entry for any purpose, even if it has been selected as a winning Entry.

## **EVENT RECOGNITION (NON-PRIZE)**

Recognition is not a Prize. Separate from the cash Prizes described above, Gloo may present informal recognition at the Hackathon to celebrate the character and culture of the event. Recognition is not a Prize, is not part of and is not funded from or counted against the \$200,000 cash Prize pool, and is not awarded on the basis of the judging criteria and weights published above.

Recognition categories. Gloo may present the following recognition:

| <b>Recognition</b>           | <b>Bestowed by</b>                | <b>Number</b>  |
|------------------------------|-----------------------------------|----------------|
| Best Shoes                   | Gloo Director of Corporate Events | Up to one (1)  |
| Most Servant Minded Attendee | Gloo Director of Corporate Events | Up to two (2)  |
| Best Social Media Posts      | Gloo Director of Social Media     | Up to five (5) |
| Best Dressed                 | Gloo Director, Corporate Events   | Up to one (1)  |

|                |                                 |                |
|----------------|---------------------------------|----------------|
| Scavenger Hunt | Gloo Director, Corporate Events | Up to five (5) |
| Misc           | Gloo Director, Corporate Events | Up to ten (10) |

No entry and nothing to submit. There is no entry, application, submission, nomination fee, or other requirement to be considered for recognition, and no purchase or payment of any kind is required. Recognition is open to any Hackathon attendee. Nothing is risked, wagered, or given up in exchange for the opportunity to receive recognition.

How recipients are selected. Each recognition is bestowed by the individual identified above, in that individual's sole discretion, based on his or her own observation and judgment. Recognition is not a contest, and no recognition is determined by drawing, lot, raffle, ballot, vote, coin toss, random selection, or any other method involving chance. Gloo may present recognition in some, all, or none of these categories, may present fewer than the maximum number shown, may add or retire categories at any time, and may decline to present any recognition at all. Gloo is under no obligation to bestow recognition on any person.

What recipients receive. Each recognition recipient receives one gift card as described in the Recognition Gift Cards section below. No cash is awarded for recognition. The maximum aggregate retail value of all recognition is US \$4,000.

## RECOGNITION GIFT CARDS

What recipients receive. Each recognition recipient will receive one gift card with a face value of US \$500 (a "Recognition Card"), issued by a merchant or card issuer Gloo selects. A Recognition Card is a promotional courtesy bestowed at Gloo's discretion. It is not a Prize, is not consideration for any work, service, submission, or Entry, and is not compensation for participation in the Hackathon.

Terms of the Recognition Cards. Each Recognition Card is:

- provided as a promotional award, and is subject to the terms, conditions, expiration date, and any fees disclosed by the card issuer on or with the card, which govern the card's use;
- not redeemable for cash by Gloo, and not exchangeable with Gloo for cash, a cash equivalent, a refund, or any Gloo product or service;
- intended to be personal to the named recipient and not for resale;
- and issued subject to availability, and subject to the recipient providing Gloo with the delivery information Gloo reasonably requires.

**Gloo's role is limited to issuance.** Once a Recognition Card is delivered to a recipient, the card issuer — not Gloo — is responsible for the card, its balance, its terms, and its acceptance by merchants. Gloo is not responsible for a Recognition Card that is lost, stolen, damaged, expired, unredeemed, or dishonored, or for any act or omission of the card issuer or of any merchant. Gloo will not replace a lost or stolen Recognition Card.

**Substitution.** Gloo may substitute recognition of equal or lesser retail value, may substitute a different card issuer or merchant, or may decline to issue a Recognition Card where issuance is impracticable, unavailable, or would not comply with applicable law or with a recipient's employer, academic, or governmental policy.

**Taxes.** A Recognition Card may constitute taxable income to the recipient. Each recipient is solely responsible for determining and paying any tax arising from receipt or use of a Recognition Card, and Gloo does not provide tax advice. Gloo will file any information return, and will request any tax documentation, that applicable law requires of it with respect to a Recognition Card, including where the value of a Recognition Card must be aggregated with any Prize paid to the same recipient. If no information return is required, Gloo will not request a Form W-9, a Social Security number, or a taxpayer identification number in connection with recognition. If a recipient is an employee of Gloo, the value of a Recognition Card will be treated as compensation and processed through Gloo's payroll.

**Employer, academic, and governmental policies.** If a recipient's employer, academic institution, or government restricts the receipt or retention of promotional consideration, it is the recipient's sole responsibility to determine whether he or she may accept a Recognition Card, and Gloo assumes no responsibility for that determination.

## CODE OF CONDUCT

As participants in the Gloo AI Hackathon, we commit to fostering a community that upholds the values of respect, integrity, and compassion. We believe in the transformative power of technology to serve the Church and strive to conduct ourselves in a manner reflective of our faith. All participants must agree to abide by the following principles:

**Respect and Dignity:** Treat all participants, organizers, and stakeholders with respect and dignity. Offensive language, harassment, or any form of discrimination will not be tolerated. Overtly political projects are not appropriate for this event.

**Honesty and Integrity:** Engage in honest and transparent practices throughout the hackathon. Lying, cheating, or any forms of deception are strictly prohibited.

**Collaboration and Teamwork:** Foster an environment of collaboration and teamwork, recognizing the unique gifts and contributions of everyone.

**Ethical Use of Technology:** Adhere to ethical standards in technology development, respecting legal, privacy, and community guidelines, and aligning to [Gloo's Acceptable Use Policy](#).

**Stewardship of Resources:** Respect and responsibly use all resources, including personal property, tools, software, and assets.

**Compliance with Rules:** Comply with all rules, regulations, and guidelines outlined for the event, including eligibility, solution entry standards, and intellectual property rights.

**Positive Participation:** Actively participate and contribute positively to the community, embracing the mission and vision of the hackathon to leverage AI for the greater good of the Church.

By participating in the Gloo AI Hackathon, you agree to abide by this Code of Conduct and acknowledge that failure to do so may result in disqualification from the event.

This code of conduct is designed to create a positive and inclusive environment that aligns with Christian values and ensures a productive and enjoyable experience for all participants.

## PRIVACY

**Incorporated Privacy Statements.** Your personal information will be handled in accordance with Gloo's Privacy Statement, available at <https://gloo.com/legal/privacy-statement>, and - with respect to the tax, payment, and identification information Gloo collects from prize payees, including Social Security numbers and taxpayer identification numbers - Gloo's HR Privacy Statement, available at <https://gloo.com/legal/hr-privacy-statement>. **Both statements are incorporated into these Official Rules by reference.** By registering for and participating in the Hackathon, you acknowledge that you have read and agree to both statements, and you agree that Gloo may collect, use, store, disclose, and retain your personal information as described in them for the purposes of administering the Hackathon, judging Entries, awarding and paying prizes, meeting Gloo's tax, reporting, and other legal obligations, and promoting the Hackathon as permitted by these Official Rules. The version of each statement in effect on the date you accept these Official Rules governs your participation.

**Sensitive Information.** The Hackathon is oriented toward serving churches and ministries, and information you choose to share - including your church or ministry affiliation, your role, or the subject matter of your Entry - may reveal your religious beliefs or affiliation. Under applicable law this may constitute sensitive personal information that Gloo may process only with your consent. By registering for the Hackathon, you consent to Gloo processing such information for the purposes described in the Privacy Statement and in these Official Rules. You may withdraw

that consent at any time by contacting [privacy@gloo.us](mailto:privacy@gloo.us), and withdrawing it will not affect your eligibility to participate.

**Third-Party Platforms.** The Hackathon uses third-party platforms, including Discord for event communications, GitHub for code submission, and Google Drive for submissions and demo videos. Each is an independent third party that processes your information on its own account, under its own terms of service and privacy policy, outside Gloo's control.

**Questions and Requests.** To ask a question about Gloo's privacy practices, or to exercise a right available to you under applicable law, contact Gloo's Data Protection Officer at [privacy@gloo.us](mailto:privacy@gloo.us) or Gloo, LLC, 831 Pearl Street, Boulder, Colorado 80305.

## **DISCLAIMER OF WARRANTIES; LIMITATION OF LIABILITY; INDEMNIFICATION**

**Disclaimer of Warranties.** The Hackathon, the event venue and its facilities, and all platforms, repositories, network connectivity, tools, credits, challenge materials, and other resources that Gloo provides, designates, or makes available - including any GitHub organization, Google Drive folder, and Discord server - are provided "AS IS" and "AS AVAILABLE," without warranty of any kind, whether express, implied, or statutory. Gloo expressly disclaims all implied warranties, including any implied warranty of merchantability, fitness for a particular purpose, title, availability, accuracy, and non-infringement. Gloo does not warrant that any platform, facility, or service will be uninterrupted, timely, secure, or error-free.

**Limitation of Liability.** To the fullest extent permitted by applicable law: (a) neither Gloo nor any of its members, officers, managers, employees, contractors, agents, judges, code verifiers, sponsors, or partners, nor the owners or operators of the event venue (each, a "Gloo Party"), will be liable for any indirect, incidental, special, consequential, exemplary, or punitive damages, or for lost profits, lost revenue, lost business opportunity, loss of goodwill, or loss or corruption of data, arising out of or relating to the Hackathon, any Entry, or these Official Rules, even if advised of the possibility of such damages and regardless of the theory of liability; and (b) **the Gloo Parties' total aggregate liability to any Participant for all claims arising out of or relating to the Hackathon, any Entry, or these Official Rules will not exceed two thousand five hundred United States dollars (US \$2,500).**

**Exceptions.** The limitations in the preceding paragraph do not apply to any liability that may not lawfully be limited, including liability for a Gloo Party's willful and wanton conduct, gross negligence, or intentional misconduct, and do not apply to Gloo's obligation to pay a prize that has been duly awarded and verified under these Official Rules.

**Specific Disclaimers.** Gloo is not responsible for: Entries it does not receive for any reason; Entries that are late, incomplete, corrupted, or indecipherable; the failure, unavailability, interruption, degradation, or discontinuation of any platform, network, or service used in connection with the Hackathon, whether provided by Gloo or by a third party; loss, theft, or damage to a Participant's personal property; or any third party's unauthorized access to or use of an Entry.

**Basis of the Bargain.** The disclaimers and limitations in this section are an essential basis of the bargain between you and Gloo, and they apply notwithstanding the failure of any limited remedy.

**Indemnification.** You will indemnify, defend, and hold harmless the Gloo Parties from and against any third-party claim, and any resulting damages, liabilities, settlements, judgments, and reasonable attorneys' fees and costs, to the extent arising from (a) your breach of any representation, warranty, or covenant you make in these Official Rules; (b) any claim that your Entry infringes or misappropriates a third party's intellectual property, privacy, or publicity rights; (c) your disclosure to Gloo of any third party's confidential information or trade secret; or (d) your violation of any applicable law or of the Code of Conduct. This indemnity does not apply to the extent a claim arises from a Gloo Party's own gross negligence or willful misconduct. Gloo will notify you of any claim for which it seeks indemnification and may, at its option, control the defense of that claim with counsel of its choosing, in which case you will reimburse Gloo's reasonable costs of defense. You will not settle any claim in a manner that imposes any obligation on a Gloo Party without Gloo's prior written consent.

## **GOVERNING LAW AND DISPUTE RESOLUTION**

**Governing Law.** These Official Rules, the Hackathon, and any dispute, claim, or controversy arising out of or relating to any of them or to any Entry (each, a "Dispute") are governed by the laws of the State of Colorado, without regard to its conflict-of-laws principles.

**Exclusive Jurisdiction and Venue.** You and Gloo consent to the exclusive jurisdiction and venue of the state and federal courts located in the City and County of Denver, Colorado, for all Disputes, and each of you waives any objection to that jurisdiction or venue, including any objection based on personal jurisdiction or inconvenient forum.

**Informal Resolution First.** Before commencing any action, the party asserting a Dispute must give the other party written notice describing the Dispute in reasonable detail - to Gloo at legal@gloo.us and at Gloo, LLC, 831 Pearl Street, Boulder, Colorado 80305 - and the parties will then attempt in good faith to resolve the Dispute for a period of at least thirty (30) days after that notice. Compliance with this paragraph is a condition precedent to commencing any action, and any applicable limitations period is tolled during that thirty-day period.

**Waiver of Jury Trial.** To the fullest extent permitted by applicable law, you and Gloo each knowingly and voluntarily waive any right to a trial by jury in any Dispute.

**No Class or Representative Proceedings.** To the fullest extent permitted by applicable law, each Dispute must be brought in an individual capacity only. You may not bring or participate in any class, collective, consolidated, or representative proceeding against Gloo, and no court may consolidate another person's claim with yours or preside over any form of class or representative proceeding. If this paragraph is held unenforceable as to any Dispute, that Dispute must be severed and stayed pending resolution of all Disputes to which this paragraph does apply.

**Time to Bring a Claim.** Any Dispute must be commenced within one (1) month after the date on which the claim accrued, to the fullest extent permitted by applicable law. A Dispute not commenced within that period is permanently barred.

**Equitable Relief.** You acknowledge that a breach of the confidentiality, intellectual property, or license provisions of these Official Rules would cause Gloo irreparable harm for which monetary damages would be an inadequate remedy. Notwithstanding the informal-resolution requirement above, Gloo may seek injunctive or other equitable relief in any court of competent jurisdiction without the necessity of posting a bond or proving actual damages.

**Attorneys' Fees.** In any Dispute, the prevailing party is entitled to recover its reasonable attorneys' fees and costs, including fees and costs on appeal.

**These Official Rules Control.** If anything in a registration page, website, advertisement, FAQ, email, social media post, Discord message, presentation, or oral statement conflicts with these Official Rules, these Official Rules govern.

**Severability; Waiver; Survival.** If any provision of these Official Rules is held invalid or unenforceable, that provision will be modified to the minimum extent necessary to make it enforceable or, if it cannot be, severed, and the remaining provisions will remain in full force and effect. Gloo's failure to enforce any provision is not a waiver of that or any other provision. The sections titled Binding Agreement and Consideration, Taxes, How Will My Entry Potentially Be Used, License Grant for Publicity and Promotional Purposes, Privacy, Disclaimer of Warranties; Limitation of Liability; Indemnification, and Governing Law and Dispute Resolution survive the conclusion of the Hackathon.
